# Route 7 Corridor Improvements Project Lane Closures

**Oct. 19-23, 2020**

Crews will be performing storm pipe installation, excavation and fill operations, clearing and other construction-related activities on Oct. 19-23 along eastbound and westbound Route 7 (including work in the [Difficult Run and Colvin Run area](#)) and on adjacent streets.

As a reminder, drivers will experience lane shifts on Route 7, traffic pattern changes on neighborhood streets, and detours along the corridor. Please see the related [traffic alerts](#) on the project website.

*All work is subject to change based on weather and schedule. Please use caution and be alert to signs, as well as potential flagger or police direction in work zones. Slow-moving vehicles and equipment may be entering and exiting the road. **Drivers are reminded that the speed limit along Route 7 has been temporarily reduced to 45 miles per hour in active work zones between Reston Avenue and Jarrett Valley Drive, and that use of a hand-held cell phone while driving through a work zone is [prohibited in Virginia](#).***

Please note that Washington Gas crews are also working along the corridor as part of the [concurrent pipe replacement project](#).

VDOT is improving almost seven miles of Route 7 between Reston Avenue and Jarrett Valley Drive in Fairfax County. The project will widen the road from four to six lanes, add shared-use paths, and make substantial intersection and other improvements along the corridor. These improvements will increase capacity, improve safety and traffic flow, and enhance mobility for cyclists and pedestrians, all in conformity with Fairfax County's Comprehensive Plan.
